Reviewer’s report

Title: Association between renal function and bone mineral density in healthy postmenopausal Chinese women

Version: 2 Date: 27 Nov 2019

Reviewer: Daigo Nakazawa

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format. Please overwrite this text when adding your comments to the authors.

3. Thank you for this valuable suggestion. We are sorry that we didn't make it clear enough. eGFR declines with age. Impaired renal function is defined as eGFR.

Are the methods appropriate and well described?

Yes

Does the work include the necessary controls?

If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?

If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English

Please indicate the quality of language in the manuscript:
