Title: Lifestyle and Environmental Contributions to Ovulatory Dysfunction in Women of Polycystic Ovary Syndrome

Version: 0 Date: 08 Dec 2019

Reviewer: David Cahill

Reviewer's report:

This paper needs considerable work before publication. Your conclusions are mostly not relevant (only BMI, smoking and hypercaloric diet are - and the latter was uncontrolled) and you need to be explicitly clear on what decoration means. The paper is overlong for the quality of the data and needs to be reduced in length by 50% or more

You need to work on your syntax (a lot)

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
