Reviewer’s report

Title: Factors for successful weight loss after bariatric surgery. Are there really any predictive factors for a successful weight loss after bariatric surgery? Results from a group of severely obese patients

Version: 2 Date: 09 Jan 2020

Reviewer: Mauro Lombardo

Reviewer's report:

The authors have greatly improved the paper as they have responded to many of my comments. I would suggest moving the limitations of the study from conclusions to discussion. Add a graph to evaluate the weight variation in the year following surgery. Why were the pre-year data not used since they are mentioned?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
