Reviewer’s report

Title: Case Report of One month and 15 days old baby with Type V Hyperlipoproteinemia

Version: 0  Date: 29 Oct 2019

Reviewer: Leticia Manuel Apolinar

Reviewer's report:

In this work was of a case report with diagnosis of Familial Chylomicronemia Syndrome (FCS) of a baby, levels of lipids were very high. In this case, it is important to note that Childhood onset of hyperlipidemia is a factor that can be employed when screening potential FCS patients, as clinical manifestations exhibit early in life due to genetic inheritance of FCS, despite not having genetic analysis in this case.

Corrections of manuscript

Several words without separation among punctuation signs or words, should be have corrections.

109-110 lines word space corrections

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
