Manuscript Category: Case Report

A case of insulin-like growth factor 2-producing gastrointestinal stromal tumor with severe hypoglycemia.

Haruka Yamasaki, Ayako Itawaki, Miwa Morita, Hitomi Miyake, Masahiro Yamamoto, Hiroki Sonoyama, Sayuri Tanaka, Masakazu Notsu, Mika Yamauchi, Yusuke Fujii, Noriyoshi Ishikawa, Izumi Fukuda, Shunji Ishihara, Keizo Kanasaki

Haruka Yamasaki and co-workers have satisfactory answered the questions pointed out by the reviewers, but a minor point deserves some effort from the authors before this manuscript can be accepted for publication.

In your Case presentation: could you kindly rephrase the following sentences to make it more readable:

"From 1 week before, he experienced rotatory vertigo, weakness and dizziness without any particular cause. Within the previous 3 days, he had fainted and fallen to the floor in the early morning."

"For the time of transferring to our hospital, he was alert with continuous intravenous infusion of glucose."
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
