Reviewer's report

Title: Genotypic diversity and phenotypic traits of Streptococcus mutans isolates and their relation to severity of early childhood caries.

Version: 0 Date: 27 Feb 2017

Reviewer: Alberto Iglesias

Reviewer's report:
The major problem I find with this manuscript is that it gives no substantial new information on the subject.

Besides the above, I found different typo errors or misconcepts, although their corrections would not save the stated major flaw of the work.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
