Title: General and Erosive Tooth Wear of 16-year-old Adolescents in Kuantan, Malaysia: Prevalence and Association with Dental Caries

Version: 0 Date: 30 Nov 2016

Reviewer: Joanna Janiszewska-Olszowska

Reviewer’s report:

I find this study interesting and quite well written. I highly appreciate the headcount of the study group. I could only suggest several minor corrections.

Introduction

Paragraph 3, line 3

I would rather write: sixteen-years old

last paragraph, line 5, reference numbering is missing by Saerah et al.

Line 2 from bottom, remove: this

The third sentence from bottom requires grammar correction for singular/plural verb forms

Table 2: the percentage could be presented in parentheses, e.g. number (%) in one column together with the number of teeth

Table 3, Table 4: it is not necessary to present p value, if no statistically significant correlation is found. It is enough to report in the text that no statistically significant correlation was found.
