Version: 1 Date: 25 Jan 2017

Reviewer: Chun-Hung Chu

Reviewer’s report:

The author almost addressed all the concerns, except the following:

1. Please add a statement of "this manuscript follows the STROBE" in the method.

2. Please refer to Smith and Knight's paper (page 436, British Dental Journal, 1984). I am quite sure they required to check the TWI for all four surfaces of a teeth. The author should discuss about this part or take TWI in this study as a modified TWI.
