Reviewer's report

Title: Effect of risk-based capitation model on caries inequalities in preschool children assessed by geo-mapping

Version: 1 Date: 26 Nov 2017

Reviewer: Peter Bottenberg

Reviewer's report:

The manuscript has been much improved, although the paragraph about the Bayesian Statistics still is somewhat hermetic. I can recommend acceptance, the more as the manuscript presents interesting research.

Are the methods appropriate and well described? If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls? If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown? If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English

Please indicate the quality of language in the manuscript:
