Title: Prevalence of Gingivitis and Calculus in 12-year-old Puerto Ricans: A Cross-Sectional Study

Version: 1 Date: 25 Apr 2017

Reviewer: Morenike Folayan

Reviewer’s report:

Dear BMC,

the authors have addressed my comments extensively. Just one clarification required: The authors collected information on the medical history of the participants. This information was not used in anyway in the entire analysis. If this was not relevant for the manuscript, can this detail be deleted from the manuscript? I assumed this was important for eligibility criteria assessment but it seemed it was not used

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
