Title: Study Protocol of a Randomized Controlled Trial to Test the Effect of a Smartphone Application on Oral-health behavior and Oral Hygiene in Adolescents with Fixed Orthodontic Appliances.

Version: 2 Date: 19 Dec 2017

Reviewer: Robert Jones

Reviewers report:

A previous review had a justified critique in questioning the importance of a protocol-only based manuscript for publication; however, the emerging trend for RCT is to publish study protocols in peer review journals. This trend informs the research community of current and ongoing RCT in accessible locations outside ClinicalTrials.gov. The authors adequately addressed the relevant reviewer's concerns in the revised submission.
