**Reviewer's report**

**Title:** From theoretical concepts to policies and applied programmes: The landscape of integration of oral health in primary care

**Version: 0  Date: 09 Aug 2017**

**Reviewer:** Steph Martin

**Reviewer's report:**

This is a tremendous and needed work. Thank you. Very illuminating.

In order for it to be more conducive to action in policy and practice, I would consider use of a figure to represent the gradient of integration (like Maslow's pyramid perhaps) so that the reader can understand the depth of the intervention (general awareness, risk evaluation, navigation, co-location, etc.). The reader needs to know how deep these efforts were/are and there is a tremendous range than can be too hidden, to my mind, in the tables and analysis.

Please see attached PDF with my annotations.
