Title: The Accuracy and Stability of the Maxillary Position after Orthognathic Surgery Using a Novel Computer-aided Surgical Simulation System

Version: 0 Date: 05 Dec 2018

Reviewer: Carlo Mangano

Reviewer's report:

this paper is as it is acceptable for publication it is innovative but i suggest some improvements

1. remove commercial name from the title
2. shorten intro section that is too long
3. not enough references to support the intro
4. english quality acceptable but can be improved
5. discussion very long with only few references
6. conclusions too short must be expanded
7. tables must be reformatted in order to be more easy to understand

i congratulate for the clarity of the methods, the way you present results, the beautiful pictures.
