Reviewer's report:

This is a very well-written paper on an important topic!

Please change the conclusions in the abstract to "These well-defined 3D scaffolds consisting of medical-grade materials optimized for cell attachment and cell growth may hold the key to a promising new approach in GBR and may enhance wound healing in certain maxillofacial issues."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
