Reviewer’s report

Title: Do fixed orthodontic appliance cause halitosis? - A systematic review

Version: 1  Date: 10 Oct 2018

Reviewer: Reviewer 2

Reviewer's report:

"REVISION ASSESSMENT FROM THE ACADEMIC PEER REVIEWER:

Has the author addressed your concerns sufficiently for you to now recommend the work as a technically sound contribution? Yes

Reviewer comments: Overall I definitely believe that the authors addressed my original suggestions/revisions. I noticed a few minor grammatical errors (forgetting occasional punctuation or spelling errors), but otherwise everything has been corrected and is well done. The authors do a decent job of re-emphasizing that generalizations and conclusions cannot be drawn on the relationship between ortho appliances and halitosis."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
