Reviewer’s report

Title: Influence of epigallocatechin-3-gallate in promoting proliferation and osteogenic differentiation of human periodontal ligament cells

Version: 0 Date: 02 Jan 2019

Reviewer: Alexandra Stähli

Reviewer’s report:

Dear authors

I read with great interest your manuscript. It is a well conducted study, nicely written. I just have two minor things: the term "odontogeisis" which is used in the introduction is an obsolete term. Further I suggest to replace the term unbalance by imbalance.

It is an interesting topic the authors investigated! Well done!

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
