Reviewer’s report

Title: The accuracy and reliability of digital measurements for gingival recession versus conventional methods

Version: 0 Date: 10 Apr 2019

Reviewer: Andy Yeung

Reviewer’s report:

Thank you for inviting me to review this manuscript.

1. Why the details of the ethical clearance are redacted? The authors’ details are provided by the reviewer PDF, the study site detail is provided in the Methods, and ethical approval details are provided in Declarations.

2. Why patients with aggressive periodontitis, any periodontal treatment received during the preceding three months were excluded? Gingival recession is highly relevant to periodontology.

3. Please state clear if the measurements from conventional methods were done on the same day / visit as the intraoral optical impressions and polyether impressions. If they were done on different occasions, then the comparisons would be meaningless.

4. Reference list is missing a lot of information, such as volume and page numbers of the cited papers.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
