Reviewer’s report

Title: Impact of molar teeth distalization with clear aligners on occlusal vertical dimension: A retrospective study

Version: 0 Date: 17 Jun 2019

Reviewer: Alessandro Mangano

Reviewer's report:

Dear Authors,

This is an important article adding useful clinical and scientific seminal information to the literature. The article has been well scientifically designed and the statistical method were rigorous. I just recommend to add the pictures of a clinical case. My decision is to accept the article with the aforementioned minor discretionary revision.

Congratulations.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
