Reviewer’s report

Title: Resistance and Resilience to Experimental Gingivitis: A Systematic Scoping Review

Version: 0 Date: 08 Oct 2018

Reviewer: Atsushi Saito

Reviewer's report:

In this systematic scoping review, the authors aimed to identify in experimental gingivitis studies changes in biomarkers that may indicate resistance and resilience.

The methodology is appropriate, and the conclusion is drawn from the results obtained.

The manuscript is relatively well written.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
