Reviewer’s report

Title: Infantile Hepatic Hemangiomas associated with high-output cardiac failure and pulmonary hypertension ------a case report and review of the literature

Version: 0 Date: 22 Jun 2019

Reviewer: Mahmoud Bahari

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

In the title : "change" should be substituted with " differences".
References are out of date. please use more references from years 2015-2019.
Abstract is too long specially in results section. remove spss software and include statistical tests. please mention surface treatments and reason for ext of selected teeth.
English translation needs revision. neck dentine?! shedding of filling material?! Please delete tables 1,2,3 and include groupings and surface treatments in the text.
In results and methods section: consider and report bond strength test first and SEM second. regarding statistical test it seems that two-way ANOVA is correct test.

Please report error bar graph instead of bar graph.
Discussion will be reviewed after statistical consultation in second round.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
