Title: The impact of dental treatment and age on salivary cortisol and alpha-amylase levels of patients with varying degrees of dental anxiety

Version: 0  Date: 12 Sep 2018

Reviewer: Vijay Prakash Mathur

Reviewer’s report:

The authors have attempted to study an important parameter and biochemical indicator in Saliva. The word "rate" has been missed while describing Heart rate. Kindly correct. I also feel that the numbers for subjects recruited and followed up are not matching at one place between text and flow chart. Please check.
