Reviewer 2:

The manuscript has been extensively improved and the authors have addressed all of my questions. Thanks, too for writing the modifications in red, which made it very easy to identify.

Minor changes

1. In the Methods section, the following phrase is hard to read: "at least ten three to four-year-old children". In other papers, I have seen it handled this way: "at least ten 3- to 4-year-old children."

2. Lines 14-15 of page 24 is confusing (Training of oral healthcare professionals). Is a word missing?
