Reviewer’s report

Title: Unconventional implant strategy for patients with a limited interocclusal space in the posterior region: A case report

Version: 2 Date: 07 Aug 2019

Reviewer: Bernhard Pommer

Reviewer's report:

Please consider the following corrections:

p2/41: Please finish the sentence "This unconventional implant surgery treatment provides minimally invasive." e.g. "This unconventional implant surgery provides a minimally invasive treatment alternative."

p3/23: "... at least 8 - 12 mm of vertical distance"

Discussion: Please include your thoughts on the effect of your treatment on TMJ health, please also provide literature references. Not correcting the elogation of opposing teeth carries the risk of changing the plane of occlusion and may thus lead to long-term complications of the joint, discus or muscles.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
