Reviewer’s report

Title: Reliability and validity of miniscrews as references in cone-beam computed tomography and intraoral scanner digital models: study on goat heads

Version: 0 Date: 23 Sep 2019

Reviewer: Michele Cassetta

Reviewer's report:

The present study is interesting and original.

In my opinion the manuscript requires a minor revision.

In particular I recommend the following changes:

Page 2, Abstract, line 48, Results:
please use 3D models instead "three digital models"

please modify : .. was observed when the 3D models angular measurements were considered.

Page 2, Abstract, Conclusion: IOSs please modify as IOS

Material and Methods

Discussion: Page 13, line 17, the present study is an in vitro study, please modify the text.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes
Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English  
Please indicate the quality of language in the manuscript:
