Reviewer’s report

Title: Adaptation and validation of the PEDSQLTM Oral Health Scale for toddlers in Chilean Population

Version: 1 Date: 07 Oct 2019

Reviewer: Cristiane Bendo

Reviewer's report:

The reported aim of this study was to cross-culturally adapt the PedsQL Oral Health Scale into Chilean Spanish and assess its reliability and validity. The authors answered all my previous comments, and they did a great job in improving the manuscript. I have only two minor suggestions now.

* Line 73 - Such subscales are from PedsQL 4.0 Generic Core Scale, and not for specific modules. Authors must reorganize this paragraph.

* Table 2 - It is not common using Total Generic Core Scale including oral health scale. Total scores of each one is used in an independent way. Thus, I suggest explaining in Methods how it was performed.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
