Reviewer’s report

Title: Oxidative stress levels and oral bacterial milieu in the saliva from pregnant vs. non-pregnant women

Version: 1 Date: 24 Mar 2020

Reviewer: Sadeq Ali Al-Maweri

Reviewer's report:

The authors responded well to the comments, and the manuscript has been improved substantially. My main concerns were the small sample size and the lack of oral clinical examination, both of which were highlighted in the discussion and listed as potential limitations. Therefore, I recommend acceptance of this work in its current form.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
