Reviewer’s report

Title: Current Status of Periodontal Disease in Adults in Takahagi, Japan: A Cross-sectional Study

Version: 0 Date: 12 Dec 2019

Reviewer: Noriyoshi Mizuno

Reviewer's report:

"Current Status of Periodontal Disease in Adults in Takahagi, Japan: A Cross-sectional study" is an interesting manuscript. However, the reader should be able to gain a better understanding if the following points are revised.

1. In the manuscript, the data of Takahagii City and Ushiku City are compared and examined, but there is a lack of explanation about both cities when the data was collected. The author has to give a little more detail about the fact that both cities are cities with similar backgrounds.

2. In Figure 1, the dotted line is shown as a solid line, so correction is required.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
