Title: Validation of a modified version of the Spanish Geriatric Oral Health Assessment Index (GOHAI-SP) for adults and elder people

Version: 1 Date: 29 Jan 2020

Reviewer: Mariana Seoane

Reviewer's report:

1. The work has been enhanced after modifications.

2. Some aspects of this research topic remain for discussion, because it is a research area that admit it. I think "a modified version…" is the most appropriate way to describe what the authors did in this research. Nevertheless, it could admit debate … which is good in the sphere of promoting new knowledge.

3. There is a more precisely explanation of the original instrument and its dimensions.

4. Methodology has become more comprehensibly, since it is clear the role of each participant (FC and random sample).

5. Discussion and conclusion are appropriate.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
