Title: Current advance care planning practice in the Australian community: a survey of Home Care Package case managers and service managers

Version: 5 Date: 24 March 2015

Reviewer's report:

The authors have done an excellent revision of an already strong manuscript. My main concerns were that it required a fuller description of the Australian context and that the sample need to be explained more fully. Both concerns were addressed satisfactorily and the paper is now suitable for publication in the journal.
