Title: Implementation strategies to improve the organisation of palliative care: recommendations of expert opinion leaders

Version: 3 Date: 22 June 2015

Reviewer: Sherika Newman

Reviewer's report:

Minor:
Table 1: Recommend more descriptive label for “median”, ie age.
Table 2: under unique selling points, second bullet; change “impact of using it” to impact of using selling point/strategy/sales pitch

Discretionary:
The qualitative approach of the study was mentioned but not well described. I'm not sure if the description is too complex but a brief explanation would be nice.

Line 284 is confusing; I'm not sure what “already during a project” means in the context of the sentence.

The title could read Implementation Strategies to "Promote" the Organization of Palliative Care
