Reviewer's report

Version: 3 Date: 2 November 2015

Reviewer: Raymond Viola

Reviewer's report:

The authors have adequately addressed all of the comments and suggestions I made in my initial review. I have the following minor comments and questions:

1) Spelling error on page 17, line 392 - "willing" is missing an 'l'.

2) There remain several abbreviations and acronyms in the main text of the manuscript that I believe should be spelled out in full the first time they are used in the main text. The remaining ones I can finds are:

- SAIATU on page 6, line 137.
- MRC on page 7, line 150
- INSPIRE on page 7, line 154
- RCT on page 7, line 163 (then can use 'RCT' alone on page 11, lines 231-2)
- CONSORT on page 11, line 243
- SPICT on page 13, line 289

3) Did the authors intend to remove the letters "MORE" attached to "care" on page 19, line 440?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
