Reviewer's report

Title: Validity, reliability and responsiveness to change of the Italian Palliative care Outcome Scale. A multicentre study of advanced cancer patients.

Version: 5 Date: 31 January 2016

Reviewer: Cinzia Brunelli

Reviewer's report:

I'm happy with authors' responses and revisions.

I only have a minor essential revision to suggest:

Abstract line 56 substitute "We found good test re-test reliability..." with "We found acceptable to good test re-test reliability..."

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
