Reviewer’s report

Title: 'Worried to Death': The assessment and management of anxiety in patients with advanced life-limiting disease, a national survey of palliative medicine physicians

Version: 0 Date: 10 Mar 2017

Reviewer: Marilène Filbet

Reviewer’s report:

This interesting topic need to be adressed in palliative care, and specialty the mesusage of the benzodiazepine drugs.

Anyway we have some weakness in this research regarding the low rate of answer.

As the literature review seems have been extensive, it will be usefull to add a table comparing the different tools for the Anxiety screening and their properties.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
