Title: Continuous Palliative Sedation for Patients with Advanced Cancer at a Tertiary Care Cancer Center

Version: 1 Date: 26 Sep 2017

Reviewer: Martin Weber

Reviewer’s report:

Thank you for this revised documents. All Points risen in the reviewers comments are well taken into account.

There is still one clarification to be made in my opinion concerning Figure 1:

The given figures are still confusing: When 556 Patients with cancer were included, how could you then exclude 4 Patients who indeed didn't have cancer? I guess that 4 patients were erroneously said to have cancer but didn't have cancer in fact. So either change the numbers (552 patients with cancer to be screened) or explain your approach in a footnote.
