Reviewer’s report

Title: Designing and developing a co-produced theoretical and evidence-based online support for family caregivers of people with dementia at the end of life

Version: 1 Date: 24 May 2019

Reviewer: Meera Agar

Reviewer's report:

The authors have taken the reviewers comments into consideration and I believe the response is comprehensive and has enhanced the message of the paper.

For the few reviewer points which they have not chosen to revise their explanation and arguments for this are clear

A minor comment - the information on line 209-215 in methods commencing with 'Participants mean age was 74 years old...' outline participant characteristics should be moved to results

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
