Reviewer’s report

Title: Effectiveness of spiritual care training to enhance spiritual health and spiritual care competency among oncology nurses

Version: 1 Date: 04 Nov 2019

Reviewer: Ana Soto Rubio

Reviewer's report:

The authors have addressed successfully the issues that needed to be clarified. I find that the paper has improved significantly since last version, and that it is an important and meaningful contribution to the field of study.

Some minor details remain to be addressed:
Line 201-2: "Each session was two hours"; may be it should read something like "Each session was two hours long"; or "Each session lasted two hours"
Line 304-5: "with a moderate to intensity effect"; may be it should read something like "with a moderate to intense effect".

With this little changes, I recommend the article for its publication and congratulate the authors for the research and its contribution to the field.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
