Title: A Conceptual Model of Barriers and Facilitators to Primary Clinical Teams Requesting Pediatric Palliative Care Consultation Based Upon a Narrative Review

Version: 1 Date: 01 Nov 2019

Reviewer: Linda Oostendorp

Reviewer's report:

Thank you for the opportunity to review the revised manuscript. The authors have done an excellent job revising the paper. I am happy to recommend it for publication.

Two very minor issues:

1) in the methods section on page 3, it would be helpful if the authors could add references to the 'social psychology theories of individual and group behavior'

2) in the abstract, facilitator 5 is still described as 'shared serious news within the team' which should be 'sharing serious news as a team'

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
