Reviewer's report

Title: Predictors of modern contraceptive methods utilization among married women of reproductive age groups in Western Ethiopia: a community based cross sectional study

Version: 3  
Date: 20 November 2014

Reviewer: Björn J Oddens

Reviewer's report:

The reviewers report is attached as attachment.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I am employee of a company that develops and markets contraceptive methods (such as oral contraceptive pills, injectables and implants) - this paper describes the utilization of contraceptive methods in West Ethiopia.
