Reviewer's report

Title: The costs of offering HPV-testing on self-taken samples to non-attendees of cervical screening in Finland

Version: 5 Date: 27 September 2015

Reviewer: Morgan Marks

Reviewer's report:

Major Compulsory Revisions
Overall, I have no additional major comments on this manuscript other than additional information on the assumptions the authors used to generate their cost-effectiveness model. For example, a more detailed description of where their opt-out rate for self-sampling was generated from.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
I am currently an employee of Merck and Co. Inc which manufacturers the HPV vaccine.
