Title: Case report: term birth after fertility-sparing treatments for stage IB1 small cell neuroendocrine carcinoma of the cervix

Version: 0 Date: 22 Apr 2017

Reviewer: Ahmed Nassr

Reviewer's report:

An interesting case report of favorable pregnancy outcome after fertility sparing treatment for SCNEC of the cervix.

I have only two comments:

1- Did this patient had cerclage?
2- The discussion section is very long

Otherwise the case report is well written and adds to the literature
