Reviewer’s report

Title: Implications of male circumcision for women in Papua New Guinea: a transformational grounded theory study.

Version: 0 Date: 10 Jun 2016

Reviewer: Joseph De Santis

Reviewer's report:

This manuscript reports the findings of a qualitative study that focused on implication of male circumcision for women in Papau New Guinea. The manuscript is unique, well-written, and makes an important contribution to the literature. I have identified no areas that need to be improved. I believe that the manuscript is ready for publication.

It was a pleasure reviewing your important work!

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
