Reviewer’s report

Title: Profiles of lipids, blood pressure and weight changes among premenopausal Chinese breast cancer patients after adjuvant chemotherapy

Version: 1 Date: 24 May 2017

Reviewer: Ikechukwu Iloabachie

Reviewer's report:

Good study exploring new long term effects of adjuvant treatment of breast cancer. I think that the study is best described as a retrospective cohort study as there was no further follow up of the patient after the initial contact.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
