Reviewer’s report

Title: Individual-level and Community-level Determinants of Cervical Cancer Screening among Kenyan Women: A Multilevel Analysis of a Nationwide Survey

Version: 1 Date: 05 Jul 2017

Reviewer: Johannes Berkhof

Reviewer's report:

The paper has been very much improved.

A last point from my side is that I do not see why separate Table 3 and 4 are needed.

Only the fixed effects in the right columns of Table 3 and 4 are discussed by the authors, so the two right columns of the two tables can be merged into one new Table 3.

The ICC of the models without community-level characteristics can be presented in the text if the authors feel these estimates are useful.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organisation that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I received consultancy fees from GSK, Roche, and Merck. All fees were collected by my employer.
