Reviewer's report:

Thank you for the opportunity to review your revised manuscript.

The manuscript is much improved and better organized. There are still some issues with flow and use of English. I have included one specific comment below:

Results:

* Page 11 lines 2-3 related to unplanned pregnancy read "In these situations, pregnancy is the result of a careless use of contraceptive methods." Do you know this to be accurate? This statement assumes contraceptive methods were available and seems to imply that she has control over their use.

Best of luck with your work.
