Reviewer's report:
Dear Authors

Well done on undertaking this important research for your setting. I have made a number of suggestions throughout the manuscript, and would also like to suggest the following:

Methods section needs more work to make it more specific. For example, were the swabs clinician collected or self collected. What happened to the swabs immediately after collection. How was consent obtained?
More comments in annotated pdf.

Quality of written English
While this is well written it needs editing to make it more succinct and to reduce some repetition. In addition I would revise the results section, placing background/ demographic data into first section before moving onto specific findings.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Unable to assess
Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I recommend additional statistical review

Quality of written English
Please indicate the quality of language in the manuscript:
Not suitable for publication unless extensively edited
