Reviewer's report

Title: Prevalence of dysmenorrhea among university students in northern Ghana; its impact and management strategies

Version: 0 Date: 18 Jul 2017

Reviewer: Subha Ray

Reviewer's report:

1. The manuscript requires thorough language editing.

2. The objective of the study could be focused only on the prevalence of dysmenorrhea and its concomitants. The management part is not required in the context of the manuscript.

3. The method section does not allow a reader to understand the data types collected, the description of the variables used in the study, the age range of the participants, the statistical analyses undertaken in the study. This part requires serious revision.

4. The discussion section lacks the critical appraisal of the result. It failed to address why sociodemographic variables and other menstrual characteristics showed significant association with dysmenorrhea.

5. The author can take up a binary regression analyses in order to understand the determinants of dysmenorrhea in the study population.
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?
If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
