Title: Effectiveness of a Culturally Tailored SMS Alcohol Intervention for Same-Sex Attracted Women: Protocol for an RCT

Version: 1 Date: 31 Dec 2018

Reviewer: Toby Lea

Reviewer's report:

I'm happy with the revisions the authors have made to the manuscript. There were two small things I noticed. 1) In the last box in Figure 1, there is a grammatical error - "be interview". 2) I think the inclusion of transgender men needs a little more explanation as this is a study of same-sex attracted women. I am assuming transgender men are included as many trans men are involved in lesbian and queer women's communities prior to transitioning, but I think the authors need to explain their rationale.
