Reviewer’s report

Title: Contralateral ovarian endometrioma recurrence after unilateral salpingo-oophorectomy

Version: 0 Date: 25 Feb 2019

Reviewer: Akmal El-Mazny

Reviewer's report:

Thank you for giving me the opportunity to review this interesting study "Contralateral ovarian endometrioma recurrence after unilateral salpingo-oophorectomy".

However, I have some comments and recommendations:

Comments:

Title:

- Is appropriate for the content of the article.

Abstract:

- Represents a suitable summary of the work.

Article content:

- The design, methods and analysis of the results are appropriate for the study.

Conclusions:

- Are justified on the basis of the results of the study.

Recommendations:

Introduction:

- Emphasize the gap of knowledge about postoperative recurrence.
Methods:
- Adequately describe inclusion and exclusion criteria.

Results:
- Do not duplicate, the text should complement the tables and figures.

Discussion:
- Suggest clinical implications.

References:
- Stick to the format of the journal.

General:
- Revise spelling, grammar and format.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
