Reviewer’s report

Title: Removal of an endometrioma passing through the left greater sciatic foramen using a concomitant laparoscopic and transgluteal approach: case report

Version: 0 Date: 28 Jan 2019

Reviewer: Ferrero Simone

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

This is an interesting and well-written report.

Minor remarks

The first paragraph of the Discussion is not relevant and it should be deleted "Endometriosis is one of the most common benign gynecologic diseases in women of reproductive age, the morbidity of which reaches up to 10% [1]. The true frequency is actually …"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
