Reviewer’s report

Title: Fatalism in breast cancer and performing mammography on women with or without a family history of breast cancer

Version: 2 Date: 02 Jun 2019

Reviewer: Zohreh Mahmoodi

Reviewer's report:

This paper has a many problem .first of all that is the most important is,its innovation.this subject doesn't have any innovation.

Abstract: please write p-value and the pace that data gathering were done.

Introduction:

This subject doesn't have innovation or they couldn't show it

Methods:

This part is very incomplete. they have to write the steps for developing and reliability and validity of questionnaire that they developed.

They have to write about the content of questionnaire

Result

They didn't have the necessary tables and only writ some result in text and they only have one table about demographic at the end In my opinion this paper isn't suitable for publication

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No
